

Monitoring your PCI cardholder data environment (CDE) requires constant attention. Incorporating these tasks into your ongoing operational checklist can help improve your success in meeting your PCI compliance objectives.

| DAILY, IMMEDIATELY, AFTER CHANGES OR PERIODICALLY |              |   |
|---|--------------|---|
| PCI Requirement                                   | Frequency    | Task Description  |
| 3.6.4   | Periodically | Change cryptographic keys that have reached the end of their crypto period          |
| 8.1.3   | Immediately  | Revoke access for terminated users  |
| 9.9.1   | Periodically | POS POI terminal inventory  |
| 9.9.2   | Periodically | Inspect device surfaces for tampering or substitution                               |
| 10.6.1  | Daily        | Review logs and security events of all cardholder data environment (CDE) components |
| 10.6.2  | Periodically | Review logs of other system components—as set by annual risk assessment             |
| 12.10.4   | Periodically | Train staff with security breach response responsibilities                          |

| WEEKLY          |           |  |
|-----------------|-----------|--|
| PCI Requirement | Frequency | Task Description   |
| 11.5            | Weekly    | Compare critical files using change-detection mechanisms |

| MONTHLY         |           |                                 |
|-----------------|-----------|---------------------------------|
| PCI Requirement | Frequency | Task Description                |
| 6.2             | Monthly   | Install critical system patches |

| 3 MONTHS, 90 DAYS AND QUARTERLY OR AFTER CHANGES |                               |  |
|--|-------------------------------|--|
| PCI Requirement                                  | Frequency                     | Task Description   |
| 6.2  | 3 months                      | Install all non-critical security patches (recommended)  |
| 8.1.4  | 90 days                       | Remove/disable inactive user accounts  |
| 8.2.4  | 90 days                       | Change user passwords/passphrases  |
| 3.1 b  | Quarterly                     | Identify and delete stored cardholder data (CHD) that has exceeded defined data retention periods. |
| 11.1   | Quarterly                     | Detect and identify all authorized and unauthorized wireless access points (802.11)                |
| 11.2.1   | Quarterly or After<br>Changes | Perform internal vulnerability scans   |
| 11.2.2   | Quarterly or After<br>Changes | Perform external vulnerability scans using an approved scanning vendor (ASV)                       |

| 6 MONTHS, 180 DAYS, OR AFTER CHANGES |           |                                     |
|--------------------------------------|-----------|-------------------------------------|
| PCI Requirement                      | Frequency | Task Description                    |
| 1.1.7                                | 6 months  | Review firewall and router rulesets |

| ANNUALLY OR AFTER CHANGES |                               |   |
|---------------------------|-------------------------------|---|
| PCI Requirement           | Frequency                     | Task Description  |
| 6.5                       | Annually                      | Train developers in latest coding techniques  |
| 6.6                       | Annually and After<br>Changes | Assess vulnerability of public-facing web apps  |
| 9.5.1                     | Annually                      | Review security of the backup location  |
| 9.7.1                     | Annually                      | Conduct media inventories and properly maintain accompanying logs                             |
| 11.1.1                    | Annually                      | Maintain inventory of authorized wireless access points and documented business justification |
| 11.3                      | Annually                      | Implement a penetration testing methodology   |
| 11.3.1                    | Annually or After<br>Changes  | Perform internal and external penetration testing   |

| 11.3.4  | Annually or After<br>Changes  | Perform penetration tests on CDE segmentation controls (if used)            |
|---------|-------------------------------|---|
| 12.1.1  | Annually or After<br>Changes  | Review security policies and update as necessary                            |
| 12.2    | Annually and After<br>Changes | Perform formal risk assessment  |
| 12.6.1  | Annually                      | Provide security training upon hire and at least annually                   |
| 12.6.2  | Annually                      | Confirm employees have read and understand security policies and procedures |
| 12.8.4  | Annually                      | Monitor the compliance status of service providers                          |
| 12.10.2 | Annually                      | Review and test your incident response plan                                 |
